

## A Penny For My Thoughts...

### We All Live In A Yellow Submarine

**Some submarines are yellow, others are white, brown or black. Submarines may be manned by just one person, a family or a nation of 1 billion souls. All of them lurk underwater in the depths, unseen and unheard.**

**We are not created to live in the restricted man-made environment of the submarine. Some of us who have seen the light when our submarine surfaces, have moved to land to enjoy God's abundant blessings. Even so, some returned to sea, back to their underwater world, running silent and deep, wandering endlessly in the oceans.**

**Sometimes, like the Russian sub, accidents occur and these poor souls never had a chance to see daylight. Those of us who are safe on dry land may hesitate in coming to the rescue with a myriad of reasons or excuses. Others, like the US are prevented from coming to the aid. The British may prove less than effective and the Norwegians though swift and capable, may arrive too late.**

**There are other submarines whose tragedies are never told or heard. But like all submarines, Russian or otherwise, the souls that inhabit these man-made vessels will eventually be brought to the surface - dead or alive.**

**Jesus said that the harvest is plentiful, but the labourers are few. Do you know of a submarine that is wandering in an environment of his own making, that needs to come to the surface to see the light of God's word and breathe in the free gift of salvation? Are we hesitating, afraid, distracted from reaching out to these?**
