

RUDY Lim

coordinator for HI Men Care team

Started on 1st Monday in September 2004

I must look to the **interest** of others.

I feel honored to be elected as the **HI Men Care team** coordinator. It give me **opportunity** to **serve** my fellow brothers.

This Care team is "Special" because all the men came from all walks of life. I salute the hearing impaired men because they have the **hearts** for Christ as God sees our hearts. They are ready to learn if we teach them with love and patient. They are our strong men physically. They are tough because they exercise daily.

GOALS:

- 1. We will teach them English sign language.*
- 2. We also learn Chinese as some of the deaf come from Chinese background.*
- 3. We learn three languages at the same time.*
- 4. We also share with them two or three points on the sermons so that they can get some spiritual food as well.*

In conclusion, we will have some sharings on the sermon and end with a **prayer list** for everyone to bring home to **pray**. We care for one another and to **build up** one another in Christ Jesus.
