## **WHO ARE THE CHURCHES OF CHRIST?**

To an objective observer we appear to be living in an age when bizarre behaviour is the norm even in Christianity. Christendom is split up into numerous organizations each guarding their own preserve. Clerics are trying hard to be "with it", desperate to fill pews at any price. It seems as though Christendom has gained a glut of professional extroverts with a following of exhibitionists and posers. It is even suggested that the same excesses were part and parcel of the church that the Lord Jesus started right at the beginning. These things are giving God a bad name.

The apostles warned that there would be schisms in the church. Even during the lifetime of the apostles self-willed men started divisions. Down the centuries Christendom has taken on fads of the times. Many long-standing deviations have become so commonplace that they are now accepted as the norm. It is the modern oddities that astound us.

The end product is that most of what we see today is far removed from the Christianity of the Bible. Christianity has become a laughing stock throughout the world. That is why many do not want to have anything to do with it and assume that the Lord Jesus Christ was equally absurd.

The Lord Jesus wants all His followers to be one so that people might acknowledge His credibility. His apostle, Paul, reproved division amongst the Lord's people. The Lord Jesus himself censured man-made religious alliances. Incongruities were denounced.

The word Christianity is derived from the word Christ. Real Christianity must derive from the teaching of the Christ. Anyone with the slightest knowledge of the teaching and personality of the Lord Jesus Christ can see that the Christianity of today, with its sects and cults, is not genuine Christianity.

### **Can We Find Pure Christianity ?**

The media constantly reminds us that our coastal waters are polluted. No one in their right mind would dream of drinking a cup of water straight from any of our estuaries. If we want pure water we have to go to the source where it springs from the mountain. Similarly, human depravity has progressively corrupted many good causes. To find purity, we have to remove the accumulated dross and go back to the source. This is particularly true with Christianity. If we want pure Christianity, we must go back to the beginning, to the teaching of the Lord Jesus and His apostles. The only historically authentic source of information on this is the New Testament. We have to go back to New Testament principles.
