## Sunday Morning Worship

7 November 2021

### Priests of the Temple

By Irvin Wan  
Live @ 11am

As we approach the end of another pandemic year, our thoughts turn to the future and what awaits us in 2022. While we may feel some level of uncertainty and anxiety, we may take heart in the sure identity in Christ, who anchors us in His love no matter what happens.

That is why our concluding worship series is on our Identity in Christ. In many ways, it is a highlight reel of the entire biblical story and several preaching themes over the year. Brother Irvin Wan begins, well, where it all began - in a perfect garden where God first created us as royal priests to work, guard and nurture creation into its full potential.

Let us immerse ourselves in the biblical story. May the sacred Word of God reveal to us who we are in the sight of God, and may the knowledge of our true identity carry us forward to a new era.

# COVID-19 Guidelines

We have resumed in-person worship services and Bible Classes. Please take note of the following:

- You must be fully vaccinated to attend in-person worship (unvaccinated children under 12 years old are allowed to attend).
- Members above 60 years old are encouraged to reconsider attending to reduce social interactions.
- Adults, Youth and GEMS Bible Classes have resumed in-person. FFF will remain online until further notice.

The giving to the Mission Fund has also been very encouraging. **We have achieved 97% or \$116,494 from the target of \$120k.** Let us all continue to give our best for God’s mission so that more can enjoy the blessing and hope of eternal life with our God.

## Rebuilding Pledge Barometer

### A Message from the Pledge & Building Fund Committee

We thank everyone for your generous donations to date. Since we began in 2018, **our collection has crossed the \$4.5 million mark.** This is a milestone unprecedented in PP's history.

As the church is now at the doorstep of the construction phase of the rebuilding project, the leaders encourage all members to put in their pledges if they have not done so. We expect the cost of the rebuilding to be slightly higher due to the shortage of manpower and materials brought about by Covid-19. Your pledges will provide an indication of the overall collection and help assure that the cost of the project can be met even if the cost increases.

We are immensely grateful for the many who have already fulfilled your initial pledges. As God has blessed you, please consider making additional pledges to meet the project target amount. Regardless of the amount, every donation counts! (continued on next page)

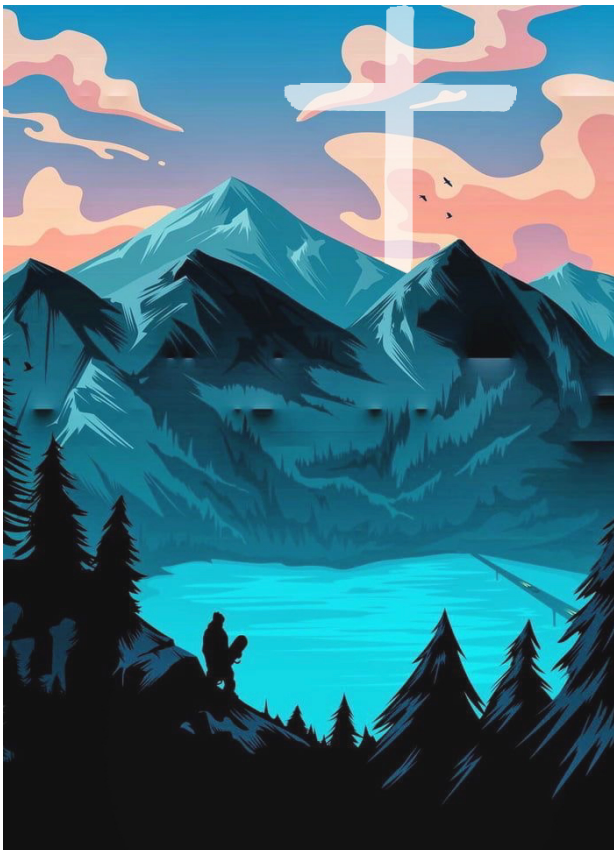

(continued from previous page) With faith in God and confidence in your generous donations, we look forward to achieving the target amount. Let us continue to pray for God's lead in this project and for each other to remain united in thought and deed to complete the project and use it to bless others for generations to come.

## Christian Art | Christ Over All

What do you think might be happening in this artwork?

I (John) see a weary pilgrim resting in the middle of a long journey. Before him the valley opens up - a vast, beautiful scene of lush forests, glistening lakes and high mountain peaks. Above it all, towering above even the highest peak, stands the pilgrim's final goal like a beacon of hope. Though there is great beauty here, how much more wonderful will it be at the end, when the Cross is clear as day and radiant as the morning sun?

This artwork was created by Moon, one of our most frequent Sunday attendees. As you can see, she has an incredible God-given talent with an eye for beauty. I asked her to create a piece of artwork that would capture the spirit of our final worship series of 2021, and this was the result. Enjoy it and let her know how much you appreciate it!

# Scratch

## *School Holiday Programming Course for children of PP & Moulmein COC*

Cameron and Tristan, sons of Larry and E Lin, are excited to share their newly acquired knowledge of Scratch, a free programming language developed by MIT. They are offering a free Holiday Programming Workshop for children aged 9 & above.

Scratch helps young people to think creatively, reason systematically and work collaboratively. With Scratch, you can program interactive stories, games and animations and share them with friends. The ability to code computer programs will be an important part of literacy in today's society.

If you are interested, please complete the Google Survey Form by scanning this QR Code. This allows us to gather feedback about the preferred timings for the workshop.

This program is mainly open to children of members of Pasir Panjang & Moulmein CoC. However, your friends may also register and we may consider running another workshop if there is sufficient interest. We hope to see you there!
