## Sunday Morning Worship

### Revealed In The Unexpected | 14 January 2024

There was once a scientist named Alex who went on holiday but forgot to fully clean his laboratory after an experiment. When he came back, he realised that one of his bacteria culture plates had gotten mouldy (gross!) but it had somehow managed to stop other bacteria from growing. This was how Dr Alexander Fleming accidentally discovered penicillin, a medicine that would save countless lives around the world.

Life is full of unplanned and unexpected things. Though unpleasant at the start, they may not always turn out bad. In fact, Scripture is full of stories where characters meet challenges and where God reveals His saving power in unexpected ways. We believe that the same God is at work today, still showing up in gloriously unexpected ways.

# Sunday Morning Worship

## Q2 Modular Bible Class

We are looking forward to being in our new building, where we will have an abundance of space to offer a wide range of classes that help us grow closer to Jesus and be transformed into His image!

Starting in April 2024, we want to offer a variety of classes at 9:30am catering to different needs and desires. Our classes will range from traditional text-based classes to spiritual formation, skills and topical studies.

If you discern that God is calling you to lead, teach or facilitate a class, we invite you to share your ideas with us via this form, and our ministers will get in touch with you!

## SING Ministry

The Singing Interest Group is a community of Christians who love to praise God in song! In 2024, we are focusing on cultivating excellence in acappella worship for God's glory. Join us for these first couple of sessions where we'll be preparing for our inaugural worship service at the new building! Sign up using the QR code or link!
